

ACOUSTIC LOUVRES AND ATTENUATORS

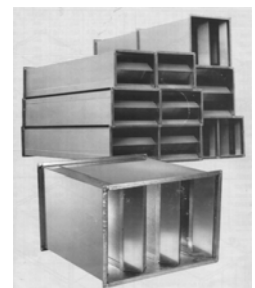

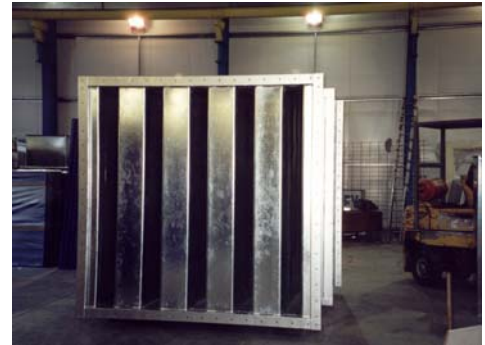

AIR IN MOTION

• **Attenuators**

- **Duct Mounted Attenuators, DW144 construction**
 - Rectangular and Bend Attenuators
 - Cylindrical Attenuators
 - Cross Talk Attenuators
 - Special Configurations

- **Specialist Applications**
 - Process System Attenuators
 - Engine Exhaust Attenuators
 - Boiler Flue Attenuators
 - Fully welded construction-
 - 2-4mm Stainless Steel type 316
 - 3-6mm Mild Steel

Offshore Applications
Process and general industrial

• **Louvres**

- Acoustic Louvres
- Weather Louvres
- Louvred Screens
- Louvred Penthouses
- Louvred Doors

• A complete range of material and finish options available:

Materials

- Galvanised Steel
- Stainless Steel
- Aluminium

Finish

- Mill Finish
- Polyester Powder Coat
- Anodised Aluminium

•Acoustic Doors

- Heavy Industrial applications
- Architectural Finish

•Acoustic Enclosures;

•Tailored Solutions to individual requirements across wide industrial spectrum

- Process Industry
- Food and Drink
- Paper, Print and Packaging
- Steel, Energy and Power
- Retail and Refrigeration
- General Industry
- Chemical and Pharmaceuticals
- Environmental Protection

• Services

- Environmental Assessments
- Noise at Work Regulations
- Noise Surveys
- System Design
