

ADJUSTABLE VANE SWIRL DIFFUSER

ADSW SWIRL DIFFUSER

Suitable for ceiling mounting and can be manufactured to suit most ceiling tile arrangements.

The steel blades can be easily adjusted from the face of the diffuser to give either a Horizontal or Vertical air pattern.

This diffuser offers high induction of room air and the rapid decay of supply air velocities and temperature differentials.

ADSW-24-L Lay-in Ceiling Type

ADSW Circular Exposed Ceiling Type

ADSW-24-C Circular Type

Regular frame options are available to suit most ceiling systems

Plenum Box Dimensions & Standards

All plenum boxes are manufactured from galvanized sheet steel and are available with 6mm or 12mm Class 'O' foam lining.

Circular Plenums

Circular plenum boxes are available to suit either ceiling or exposed services installations with either side or top entry spigot connections (side entry shown).

Ceiling Installation

Exposed Installation

Square Plenums

Square plenum boxes are available to suit either ceiling or exposed services installations with either side or top entry spigot connections (side entry shown). Tapered boxes are supplied for ceilings and parallel for exposed.

Ceiling Installation

Exposed Installation

Additional spigots and other bespoke plenums are available. please contact the Sales Office to discuss your requirements.
